

# CHOICES PROJECT 15-YEAR REPORT

**Transforming student lives through collaboration — ensuring positive sexual health choices.**

Choices Project provides support, supplies, and tools for Springfield Public Schools and teachers.

**Through the Choices Project Collaboration pregnancy rates in the 12-19 age range have dropped 38%.**

From 2005 - 2013 there have been 238 fewer students pregnant in Greene County or roughly half the population of Jarrett Middle School.

## \$2,100,000

The amount of money gifted to Springfield Public Schools over the 15 year partnership

## 150,000

The Choices Project has served over 150,000 students since the program began 15 years ago.

## 15%

Middle schools utilizing the Choices Project 8 day program have seen a 15% greater drop in teen pregnancy.

## 35 and 8

A trusted program, with certified presenters, State approval, and in 35 SW Missouri schools and 8 school districts.

“This class is very interesting in the facts that this class gives me. Thanks to this class it gave me a better view of life and what could possibly be the consequences of having sex before marriage.”

– **Jarrett Middle School 6th Grader**

“The Choices Project program has been so beneficial to my students. The students love this program, and there is a lot of positive feedback from both students and parents.”

– **Middle School Teacher**
